

High Gloss Lacquer

Dynaudio loudspeakers in high gloss lacquer

Relive music.

A passion for music is something special. Music allows us to experience so much more than just sound. Through a vast knowledge and understanding of music reproduction, the loudspeaker specialists at Dynaudio have invented a unique driver technology that renders music in perfect authenticity. Dynaudio "Authentic Fidelity" is much more than refined technical details and dedicated craftsmanship. Listening to a Dynaudio loudspeaker is like listening to music for the very first time. It is to "relive music".

Dynaudio performance in a stylish, modern design

The new Dynaudio loudspeakers in high gloss black and high gloss white lacquer: Never before has the integration into contemporary living rooms been so easy, and never before has such exceptional sound quality looked so good.

The Dynaudio sound quality is legendary, as is the quality of the Dynaudio cabinet finish. For an even better living room integration, Dynaudio loudspeakers are now available in fine high gloss finishes – in elegant black or in chic white lacquer. As with every Dynaudio loudspeaker, true beauty also comes from within: The distinctive Dynaudio driver technology ensures the beautiful sound. From the silken-smooth highs and natural mids to the dynamic, powerful bass, each and every Dynaudio model exudes authentic musicality.

The gloss finish is on the same level of quality: multiple layers of white or black lacquer are coated onto the cabinet and finely polished to achieve a smooth and even surface. Only through this time-consuming effort can a cabinet finish that equals that of the legendary Dynaudio real wood veneers be achieved. The matt silver driver basket frames offer a contrasting, modern note – or alternatively, they may be hidden beneath the included black fabric grille.

From a small compact loudspeaker to a classic high-end loudspeaker – many Dynaudio models are available in high gloss lacquer:

Audience 42 Sat, Sub 250 Sat	graphite lacquer	
Excite X12, X16, X22, X32, X36	high gloss white lacquer	high gloss black lacquer
Focus 110 A	high gloss white lacquer	high gloss black lacquer
Contour S 1.4, S 3.4, S 5.4, S C, S CX, S R	high gloss white lacquer	
Confidence C1, C2, C4, Center	high gloss white lacquer	piano black lacquer
Subwoofer Sub 300, Sub 500	high gloss white lacquer	piano black lacquer

The possibilities and uses are various: As a compact, glossy white loudspeaker on a sideboard, as a discreet on-wall-speaker mounted onto a wall, or as a classic high-end loudspeaker in luxurious black lacquer. There is a Dynaudio model for any style and decor, for any size room, and for any hifi or home theater system. Examples range from the modern Excite series, the sophisticated Contour series, the innovative Confidence series or the versatile Focus 110 A active loudspeaker.

A perfect complement can be found in the Dynaudio accessory range, like the stylish Stand[®] speaker stand or the flexible wall-mount WSB[®] also available in white or black. Dynaudio has also developed the optional plinth SF¹ to offer a solution for the direct placement of a compact loudspeaker on a sideboard, low shelf or credenza, properly angling any such model for ideal sound dispersion into the room.

The variety of Dynaudio loudspeakers also shows in the many finishes and veneers. In addition to the high gloss black (6) or white (5) lacquers, natural wood veneers in Maple (1), Cherry (2), Rosewood (3), Black Ash (4) and other individual finishes are available. Please inquire with your authorized Dynaudio dealer or take a look at the gallery on www.dynaudio.com where you will also find a wide range of accessories to ideally complement your new Dynaudio loudspeaker.
