

Two Best Buy 2008 Awards for Dynaudio!

Dear friends and partners,

At the recent "WHAT HI-FI?" awards ceremony, Dynaudio picked up two Best Buy awards for the Excite X32 and the MC 15:

"If you're more interested in the sound of your recordings than the sound of your speakers, these will be right up your street."

This is how the renowned WHAT HI-FI? magazine began their five-star review of the new **Excite X32** back in October. Now the magazine has awarded the speaker with its annual Best Buy Award 2008: The Excite X32 is honoured as the **"Best stereo speaker £1000-£2000"**!

Another WHAT HI-FI? award went to Dynaudio for the **MC 15** multimedia loudspeaker:

"If you want an audiophile-grade sound for your desktop or listening room, you should audition these Dynaudios." The MC 15 impressed the reviewers with their dynamic capabilities: "Crank them high and they remain calm and controlled at all times; listen at low levels, and you can enjoy the peaks and troughs of the music."

As a result, the magazine declared the MC 15 as the Best Buy Award 2008 winner in the category **"Best premium desktop speakers"**.

All our best wishes for the selling season and best regards

Dynaudio Group
